

## NON-USE DECLARATION

### Certificate of Halogen-Free Compliance

A-MSCREQ-NDGA02EN v1.0

Proprietary and Confidential

Ambiq Micro, Inc. (Ambiq) hereby certifies that based on the information provided by our suppliers, and to the best of our knowledge, our products are in compliance with the international standard IEC 61249-2-21 for Halogen-Free requirements.

#### IEC 61249-21 Directive

The directive defines the substances and their allowed concentrations for Halogen-Free specifications. Refer to the following table in regards to the restricted substances and their respective allowable limits.

Halogen Restricted Substances	Allowable Limit
Chlorine (Cl)	< 900 ppm
Bromine (Br)	< 900 ppm
Total concentration of Bromine (Br) +Chlorine (Cl)	< 1500 ppm

#### Important Notes:

1. In determining the Halogen-Free status of its products, Ambiq relies upon its suppliers' material content data certification for each homogeneous material in the product(s) that they or their subcontractors provide. The signature below verifies that statements above, including but not limited to material composition data are valid and accurate to the best of our knowledge for Ambiq products in original sale condition.
2. For these purposes, Halogen-Free compliant means that:
  - Our supplier has confirmed the compliance status of the relevant products to us.
  - We have implemented processes to confirm suppliers' statements and maintain relevant documents to support this.
3. To the best of our knowledge, none of our suppliers use these restricted substances above the threshold limit to manufacture our products. Our statements in this document regarding Halogen-Free compliance do not extend to, or apply to any product subjected to unintended contamination, misuse, neglect, accident, or improper installation.
